

INFECTION CONTROL COMMITTEE

Objective

To prevent the spread of infections within the health care facility. Jagannath Gupta Institute of Medical Sciences & Hospital is committed to delivering Safe Clean Care by reducing the risk of harm to patients through pursuing a zero tolerance culture.

The objectives of the Infection Prevention and Control Committee (IPCC) are:

- To advise the Chief Executive and Trust Board on all aspects of infection prevention and control.
- To provide assurance that the environment within the Trust is safe for patients, visitors and staff in terms of infection prevention and control.
- To provide assurance that all appropriate measures are being taken to assist the Trust with achievement of national and local infection prevention and control targets.
- To ensure corrective action has been initiated and managed where gaps are identified in relation to risks.

Duties & Responsibilities

- Monitoring exceptions in the infection prevention and control work plan.
 - Receiving information about national strategy and discuss how this will impact on the Trust and be operationalized.
 - Derive assurance that infection prevention and control strategy and performance is being delivered
 - Addressing food handling, laundry handling, cleaning procedures, visitation policies, and direct patient care practices
 - Agree priorities for education and training of all grades and disciplines of staff to ensure reduction of Health Care Associated Infections
 - Obtaining and managing critical bacteriological data and information, including surveillance data
 - Developing and recommending policies and procedures pertaining to infection control
 - Recognizing and investigating outbreaks of infections in the hospital and community
 - Intervening directly to prevent infections and educating and training health care workers, patients, and nonmedical caregivers.
-
